GEORGE CRAIG ARRESTED

Charged With Violation of Local Option Laws—Gives Bond and is Released.

George Craig was arrested in Maryville this morning by Sheriff Ed Wallace on a charge of violating the local option laws. It is alleged that one day last week a party made up of Guy Gray, Jim Palmer, colored, and George Craig were touring the section known as "Toad Hollow," east of Burlington Junction, in an automobile, working in the interest of John Dowden, candidate for sheriff.

According to the representations, the party came upon some men, when one of the men asked if they "had anything to drink," whereupon Craig is alleged to have produced a quart bottle of whisky and to have asked the enquirer to have a drink. The party to whom the whisky was offered, it seems, did not drink and it was offered to another one of the men, who happened to be one of the Democratic election judges in his district. Some of the whisky, it is alleged, was drunk and a complaint was made to the prosecuting attorney, who, upon this presentation of the facts issued an information charging Craig with a violation of the local option laws. The law prohibits anyone from selling, giving away or bartering in any manner whatsoever any intoxicating liquors or beverages within a local option district.

Craig gave bond this morning and was released, Will Phares, going on his bond.

BARNARD WAS FIRST

FERN CAMPBELL AND LUCILE GARDNER WON.

DECLAMATORY TO TARKIO

Miss Gladys Davidson Took First—Claude D. Bonham of King City Won in Oratorical Contest.

A large crowd attended the contests at the Normal auditorium last evening and the audience was well pleased with the selections and applauded heartily. The musical contest which was held for the first time this year added variety to the program and will prove to be a very valuable part of these contests. The extemporaneous speaking contest, which was introduced last spring, was not offered, but will no doubt be given again next spring.

Three schools were entered in the musical contest. They were Guilford, Barnard and Clearmont. Duets were chosen in each instance. The prize in this division, a silver cup, was awarded to the Barnard school, being represented by Misses Fern Campbell and Lucile Gardner. The judges in this contest were Mrs. F. P. Robinson, Mrs. Fred Harvey and Miss Jennie Garrett.

The declamatory contest was indeed a close one. Miss Gladys Davidson of Tarkio high school, won first with "The Lost Word," by Van Dyke. Miss Strader of Barnard was second, and Miss Laveta McClanahan of Guilford, third.

The oratorical contest was not so good as in former years. This is somewhat accounted for in the fact that only a small number of schools were represented. Claude D. Bonham of King City, with the selection "Spartiicus to the Gladiators" won first; Thomas Olds of Clearmont, second, and Francis Walton of Burlington Junction, third. The judges in the declamatory and oratorical contests were Prof. W. C. Urban of Cameron, Prof. C. T. Dougherty of Bethany and F. P. Robinson of Maryville.

The following was the program in the order of presentation:

"The Death Disc," Miss Eva Miller, Clearmont.

"Tom Sawyer's Love Affair," Miss Helen Tebow, Ravenwood.

"The Lost Word," Miss Laveta McClanahan, Guilford.

Duet, "Whispering Hope," Guilford.

"The Lost Word," Miss Gladys Davidson, Tarkio.

"The Bear Story," Miss Strader, Barnard.

"King Robert of Sicily," Miss Praiswater, Burlington Junction.

Duet, "When Love is Calling You," Barnard.

"The New South," Leslie Powell, Ravenwood.

"Resistance to British Oppression," Thomas Olds, Clearmont.

Duet, "The Good Night," Clearmont.

800 TEACHERS AT MORNING SESSION

WALTER HANSON ADDRESSES MEETING ON RECREATION NEEDS.

E. L. TOBIN SPEAKS OF SUPERVISOR PLAN

Chicago Man Tells Association of the School-Home Project Work Done in Illinois.

Today's teachers' meeting opened this morning with 800 teachers in attendance. The morning session was presided over by Mrs. Anna Sims, superintendent of Clinton county. A musical program was given by the Maryville high school, followed by a talk by E. M. Carter, secretary of the State Teachers' association.

Walter Hanson, athletic director of the State Normal school, spoke on "Play and Recreation Activities in Connection with Schools." He said:

Talks on Recreation.

"A definite recreative program for the school recesses should be planned and followed for the year. Some teachers have erected expensive apparatus on their school grounds only to discover that recreative power to do things lies in the teacher, and not in dead mechanical gymnastic devices.

"Farmer Jones may say, 'My boy gets all the exercise he needs just doing his chores and walking to school.' It may be that Johnnie Jones gets good exercise this way; but look at his shoulders. They are stooped and his chest consequently flat. He may be getting plenty of exercise for certain mucsles, yet I still contend that he needs play. He needs it because he will enjoy it. The joy will cause him to take deep breaths, to fill his chest and enlarge his lungs and improve the circulation of his blood. And good blood fights disease."

"Watch Your Step."

William M. Oakerson, chief clerk in the office of the state superintendent of schools at Jefferson City, gave a talk on the subject, "Watch Your Step."

Mr. Oakerson said:

"At the State Teachers' association which will be held in St. Louis this fall, changes in our state constitution, which will affect our educational syatem, will be discussed.

"The following changes are desired: The election of a state board of education composed of seven members, which will have the power to appoint a state superintendent of schools; the election the county unit with a smaller board of education, which will have the power of employing a county superintendent of schools, and lastly, a school taxation levy of 25 cents on the $100. This would give the public schools five million dollars, or $10 for every pupil.

"The Rev. Gilbert S. Cox sang three solos at this morning's session, which were greatly appreciated.

WHERE WOULD THEY LEAD?

With Hughes at the throttle and Teddy shoveling coal, where do you think this government would head in? Where would we be if they had been on the engine during the last three years? Who doubts that our boys and able bodied men would be right now in the trenches fighting Germany? Their own statements lead to no other conclusion.

Roosevelt says if he had been president when the Lusitania was sunk he would have seized all Germany's ships interned in American waters. Portugal interned some German ships and Germany promptly declared war on Portugal, Judge Hughes says he would have warned Germany not to do it on penalty of breaking off diplomatic relations. Suppose Germany had gone ahead. War would have followed.

But who knew the Lusitania was to be sunk? The unofficial notice printed was not taken seriously by the ship company, by England or by the hundreds of passengers taking passage. Why should the government have believed such a thing was to happen? The President had no official notice. Nobody else had any notice that was considered worthy of attention. Now, after it is all over and the developments are all in, neither Hughes nor Roosevelt can think of anything that wouldn't have meant immediate war.

President Wilson stopped Germany from repeating the offense and maintained friendly relations without the firing of a shot or the loss of a life. If Hughes and Roosevelt do not want war, why do they camplain?

It looks like fifty thousand for Wilson in Missouri and a landslide throughout the country.

Judge Hughes and his understudy, Judge Lamm, have spent a lot of time telling how not to do. Anybody can find fault with a house after it is built, but it takes a builder to construct one. And it takes more than a mere fault-finder to build a country and construct good government.

Judge Lamm has made an industrious campaign of misrepresentation about Missouri, and he has been more than industrious in keeping out of the way of Governor Major, who has been challenging him at every town for a joint discussion.

Sending a colored man out to tell white men how to vote is something new in this country.

When a gambler says an officer or a candidate is not "right", he means that the officer or candidate will not protect him in violations of the law. When a professional law breaker says a man is not "right", it's a pretty good sign that man is "right" for the balance of the community.

William Job has learned the details of a representative's work down in Jefferson City and will be an industrious friend of this county. He will not only work for Nodaway county, but he will stay on the job until the last vote is taken.

There is a federal reserve bank law in the statute books. Business men should remember that. There is a farm loan law. Farmers should remember that. There is an eight-hour law. Workingmen should remember that. There is an anti-child labor law. Mothers should remember that. There is an income tax law. Poor men should remember that. All these laws have been placed in the statute books through the direct influence of President Woodrow Wilson.—St. Joseph News-Press.

One of the most notable accessions to the ranks of the Republicans who are supporting President Wilson is Col. John McElroy of Washington, for thirty-two years editor of the National Tribune, official organ of the Grand Army of the Republic. "We old soldiers," says Colonel McElroy, "owe much to President Wilson. The new widows' pension law comes nearer to doing justice to the wives and dependents of old soldiers than any pension law ever passed. Commissioner Saltzgeber, appointed head of the pension bureau by President Wilson, has been one of the most efficient pension commissioners we have ever had. Of course, most G. A. R. veterans are Republicans. I am myself. But, however much we may disagree with the Democrats over purely party matters, as veterans of the civil war we must admit a debt to President Wilson and his administration."—St. Joseph News-Press.

The End of a Great Offer Hoosier Sale Ends Tomorrow

Will you decide now to come down tomorrow and settle the matter once for all, or will you let tomorrow drift by—and then realize that you are too late to decide because of the close of the **Hoosier Plan of Sale.**

Scores of othrr women are in your state of mind. They are reading this final call tonight. And many who have postponed as you have are making up their minds toniget to come down tomorrow for a final decision.

A choice still remains between Hoosier Beauty (selected by 3 out of 4 women) and the Hoosier Wonders. But the numbers are few and you can not hope to get one if you delay. You incur no obligation by coming, so let other matters wait tomorrow while you settle this important question.

You could scarcely imagine a decision of more importance to you. For the New Hoosier is a wonderful labor-saver--already used by 1,000,000 women. It saves miles of steps and valuable time. It saves health and good looks. It is very low in price—and on the liberal terms of the Hoosier Plan is the Cheapest Kitchen Cabinet Ever Built.

2—$1.00 weekly quickly pays for it.

3—The Low Cash Price fixed by the factory prevails strictly.

4—The sale is under direct supervision of the Hoosier company.

5—No interest. No extra fees.

6—Your money back if you are not delighted with your Hoosier.

What Possible Reason can remain to deprive you of the use of this Hoosier? Only the small number of Hoosiers left and the certainty that more women will come than we can supply. Every day we have enrolled more women on the Hoosier plan than we expected. There are fewer cabinets left for tomorrow than we have sold in one day. These few undoubtedly would be taken without this ad, but we make this final announcement to keep our promise to advise you of the last day.

We Now Have Kept Our Promise To You—Please remember, if you come too late, that we have told you every day of the progress of this sale and that we now warn you of the final date in time for you to still enroll if you act early tomorrow.

With the recreator of sound. By far the finest instrument for the home or school, not only because it reproduces music and the human voice so perfectly it can not be told from the original; but also because the records are unbreakable, and a diamond point is used instead of a dangerous needle. Furthermore the records last practically for ever and cannot be marred and destroyed as with a needle machine.

THE NEW EDISON

Reproduces sound so wonderfully that it cannot be told from the original. The Edison Diamond Disc recreates perfectly as shown by thousands of tone tests and is so superior to all classes of needle machines that those who want the best would not think of having any but the NEW EDISON.

All Tulips

Daffodils, Hyancinths, Jonquils, Crocus and such bulbs which bloom in the spring have to be set out in the autumn months. Under the covering of frost and snow down in the soil they form roots during the autumn and winter months, establishing themselves for the blooming period in the spring months. Nature has endowed these subjects with these qualities, and to go contrary to nature by letting them remain on the store shelf over winter is loss of vitality at the expense of the bloom. Planting these bulbs in the autumn months is the only method by which they can be had in bloom in the spring. During November, before bad weather set these out, and we shall oe est these out, and we shall be pleased to have you look over our assortment of our importation direct from Holland.

900 TEACHERS

(Continued from Page 1.)

gave his very interesting lecture on "School-Home Project Work and the Duties of Country Life Directors." In speaking of what is being done in Cook county, he said: "We teach the child to do things as well as to study about things. We have the two courses, the academic and the achievement course.

"When a child reaches about the fifth grade it must also take up the achievement course. The school-home project work is composed of such work as gardening, cooking, business, sewing, canning and work in the field. All of this work is done at the home of the child under the supervision of the school.

"The county superintendent of Cook county has five supervisors who cooperate with him in the supervision of this work. One supervisor is alloted to each 4 or 5 townships. School-home project work goes on the year around. But the academic work is taught in the regular manner. The teacher and the supervisor go together when visits are being made to the different pupils.

With such a system the teacher can bring the outside world into the academic subjects. Then before a student can graduate there must be the O. K. of the teacher and the supervisor of the school-home project work.

"Mental Hygiene."

W. C. Urban, superintendent of the schools of Cameron, delivered an address on "Mental Hygiene." Some of his most striking remarks follow:

If we as teachers feel that we are abused then why don't we get out of the business?

When we get an idea from some book or journal we expect it to work right off.

I used to think that everything should be learned by rule.

When children ask us why this and why that, we put them off by saying those things are trifles.

The evil results caused by child worrying over grades, etc., are permanent.

Some teachers knock all the confidence out of children and make them spineless.

No punishment so harmful to child as sarcasm and calling the child a numbskull, saphead fool, sneak and a liar.

Sarcastic teachers are never loved by pupils.

Praise a child not so much for what it accomplished as for what it honestly tried to accomplish.

Have you confidence in the success of the child? Many children who do not get what we lay down go out into the world and become leaders of men.

Are the children whom you are teaching growing, happier, freer and more interested each day?

Afternoon Session Opens.

This afternoon's sesion opened with a musical program by the Barnard high school. Nellie K. Sutton, superintendent of Harrison county schools, presided. Superintendent V. G. Mays of the St. Joseph public schools and William A. McKeever of the University of Kansas gave addresses.

The Harrison county teachers met in room 103, Clinton county in room 302, Gentry county in room 219, Atchison couty in room 313, and Nodaway county in the auditorium.

Dr. Caldwell's Address.

Dr. Otis W. Caldwell, dean of natural sciences of the University of Chicago, gave an address yesterday afternoon on the subject "The Law of Individual Development." He said in part:

"But what of our progress in school work? We are told by some that the schools of today are not so good as those of our fathers. Recently in Massachusetts old records of examinations fifty years ago have been discovered. The same questions that were given to the eighth grade of that time was given to the children of the eighth grade of today. In spelling fifty years ago the children averaged 40 6-10 per cent. The children of that same school today averaged 51 2-10 per cent. In Cleveland some old records were unearthed and in spelling the children of today averaged 61-10 per cent more than did the children of fifty years ago. In arithmetic they averaged 23 6-10 per cent more than did the children of fifty years ago.

MARSHALL JUSTIFIES WORD.

Republican newspapers and campaign speakers have been attempting to make capital out of the charge that Vice-President Marshall referred contemptuously to the Civil Service as the "Snivel" Service. Here are the facts stated by Mr. Marshall in a signed statement from Cincinnati:

The phrase was not used with reference to the merit system, which I heartily favor, but was in condemnation of Republican hypocrisy of that Party's use of the law and its unjust criticism of Wilson's appointments.—Thomas R. Marshall.

What a grand time Wall Street and the Republican Old Guard would have "correcting President Wilson's mistakes" and re-establishing the "invisible government."
